Hello !

I received yet another card about SC E & G wanting to (i assume) raise rates.

This is the 2nd one in the last couple of months.

By necessity, we keep a very tight budget in our home.

My pay rate has not increased, in fact has gone down in the last 10 years.

Yet, at every turn, someone wants more money for the same service. Where are we to obtain these extra funds ?

My **family** has to live within our means, shouldn't the necessary utilities have to do the same ?

Please represent us.

Thanks,
Barry Ducra
